PROFESSIONAL SUMMARY

Technical Project Manager with 10+ years of experience leading digital transformation and eGovernance initiatives for Government of India departments and institutions. Expert in translating complex operational and policy requirements into scalable technical solutions while managing cross-functional stakeholder teams, budgets, and delivery timelines. Proven ability to drive process automation, system modernization, and workflow optimization initiatives across high-volume government systems serving millions of citizens. Strong background in SDLC/Agile project delivery, risk management, and secure infrastructure architecture with consistent track record of on-time, within-budget project completions.

CORE COMPETENCIES & EXPERTISE

Project Management:

• Scope, Schedule & Budget Management
• Risk & Stakeholder Management
• Resource Planning & Allocation
• Project Portfolio Tracking
• Process Improvement & Optimization
• Team Leadership & Coordination
• IT Project Lifecycle Management

Digital Transformation:

• eGovernance Solutions
• Workflow Automation & Digitization
• Enterprise Application Development
• System Modernization & Migration
• Citizen-Facing Digital Platforms

PROFESSIONAL EXPERIENCE

Technical Project Manager | Digital Transformation & Enterprise Solutions

Directorate General of Foreign Trade (DGFT) Department of Commerce, Mumbai | Jan 2025 - Present

Led end-to-end delivery of digital workflow automation platform serving 500+ government users with 99.9% uptime. Managed stakeholder coordination across 3 departments and optimized critical operational processes.

- Designed and implemented scalable digital workflow solutions handling 10,000+ daily transactions for high-volume government operations.
- Coordinated cross-functional teams to deliver enterprise digital platforms improving operational workflow efficiency by 45%.
- Managed system performance optimization project reducing processing time by 30%, achieving critical SLA targets.
- Drove requirement gathering, process mapping, and digitization initiatives with multiple stakeholders; documented FRD and RTM.

- Ensured secure architecture implementation and compliance with government IT standards (secure backup, 99.9% data integrity).

Project Lead & Full Stack Technical Developer
Department of Consumer Affairs, Government of India, Delhi | Feb 2022 - Dec 2024

Managed end-to-end implementation of enterprise government digital applications serving 5,000+ concurrent users. Coordinated with technical teams and business stakeholders to deliver system modernization initiatives on schedule and within budget.

- Oversaw technical delivery of scalable government digital applications supporting critical citizen workflows and large user volumes.
- Optimized application performance through architectural improvements: 25% server load reduction, improved database efficiency.
- Implemented secure backup and disaster recovery systems ensuring 99.9% uptime for mission-critical government operations.
- Led requirement analysis and workflow modernization initiatives; translated manual processes into digital workflows with 60% manual effort reduction.
- Coordinated with 4+ government departments for system enhancement planning and process digitization across operational units.

Senior Programmer & Technical Coordinator
PSSCIVE, NCERT, Ministry of Education, Bhopal | Sep 2021 - Feb 2022

- Directed development of digital education platforms aligned with national education transformation initiatives.
- Modernized legacy systems into optimized architecture; improved platform performance by 35% and reduced maintenance overhead.
- Built responsive interfaces and optimized backend workflows supporting large-scale educational user base.

Senior Analyst & Programmer
Ministry of Education (MSRVVP) | Oct 2018 - Jul 2021

- Managed development and delivery of Admission & Examination Management System serving 5,000+ annual users.
- Automated workflows for user lifecycle management; reduced manual processes by 60% and improved data accuracy.
- Implemented role-based secure access systems and optimized data workflows for government compliance.
- Gathered and translated functional requirements into scalable digital solutions; improved operational efficiency through automation.

KEY ACHIEVEMENTS & IMPACT

- Led digital transformation initiatives serving 5,000+ concurrent users across multiple government departments.
- Managed project delivery achieving 99.9% system uptime and 100% on-time project completions.
- Improved system performance by up to 40% through optimization initiatives; reduced server load by 25%.
- Automated critical workflows reducing manual effort by 60% and improving operational efficiency across government operations.

- Reduced deployment time by 30% through automation improvements and process optimization.
- Coordinated stakeholder engagement across 6+ government departments for requirement analysis and solution delivery.

TECHNICAL EXPERTISE & SKILLS

PM Methodologies: SDLC (Waterfall & Agile), Risk Management, Stakeholder Management, Requirements Analysis, Process Optimization, Budget & Resource Planning, Quality Management
Development Stack: PHP, Laravel, JavaScript, React, Tailwind CSS, MySQL, REST APIs, Git, Linux, WordPress, Drupal
Domain Expertise: eGovernance, Digital Transformation, Workflow Automation, Enterprise Systems, System Modernization, Citizen-Facing Platforms, Government IT Operations, Secure Application Development

CERTIFICATIONS & TRAINING

- Digital Transformation with Agile Project Management – National e-Governance Division (NeGD), MeitY
- Executing Large Scale Digital Transformation Projects – NeGD, MeitY, Govt. of India (Issued May 2026)
- Digital Transformation: Effective Procurement & Project Management – NeGD, MeitY (Issued May 2026)
- Implementation of National IT Projects in Government Sector – NeGD, MeitY (Issued May 2026)
- Digital Transformation: Financial Reporting & Analytical System – NeGD, MeitY (Issued May 2026)
- Project Management – IIT Kanpur
- Cyber Security and Strategy – Indian Institute of Public Administration (IIPA), Karmayogi Bharat (Dec 2023)
- AI Fluency: Framework & Foundations – Anthropic (Apr 2026)

EDUCATION

M.Tech – Computer Science & Engineering | Shri Aurobindo Institute of Technology & Science, Indore
B.E. – Computer Science & Engineering | Prashanti Institute of Technology & Science

GOVERNMENT SECTOR ENGAGEMENTS

Directorate General of Foreign Trade (DGFT), Ministry of Commerce | Department of Consumer Affairs, Government of India | PSSCIVE, NCERT, Ministry of Education | MP Government Institutions | Maharishi Sandipani Rashtriya Ved Vidya Pratishthan
